### 多功能偏心钻头

### 匠心打造 摆脱加水

REDMAMBA干打钻，每天多赚RMB  
每天开孔多一些 出货日常

六角柄接杆

#### 温馨提示：

本产品刀头为特质超硬质合金如需干打请将  
转速控制1500转左右，均匀按压效果显著。

**i** 专业生产多功能钻头源头厂家，应对更多开孔领域。提升产品硬度大幅提升产品使用次数，家装开孔一支搞定。相比市面钻头具有更强的性能，开孔光滑，同时有效避免晃动打滑等情况。

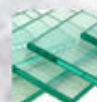

### 六角柄加长螺旋十字钻

#### 产品特点:

- 采用硬质合金加工而成，材质坚硬，耐磨强，韧性高，更耐用。
- 四刃刀口，加宽螺旋排屑槽，提高了钻孔排屑速度。
- 六角柄配合充电钻、手电钻等机器使用。
- Made of hard alloy, the material is hard and wear-resistant, High toughness, more durable.
- Four blade blade, widened spiral chip removal groove, improved drilling chip removal speed.
- The hexagonal handle is used in conjunction with machines such as charging drills and electric hand drills.

### 多功能墙壁钻

#### 产品特点：

- 采用高品质合金，比普通钻头硬度更高，更耐磨损。
- 双螺旋U型排屑槽设计，钻体表面经过精抛处理以及防锈处理，钻头排屑更顺畅。
- 三角柄采用防滑三角设计，夹持更紧不打滑。

#### Product features:

- Adopting high-quality alloy, it has higher hardness and better wear resistance than ordinary drill bits.
- Double spiral U-shaped chip removal groove design, with the surface of the drill body treated with precision polishing and Rust prevention treatment ensures smoother chip removal from the drill bit.
- The triangular handle adopts an anti slip triangular design, which ensures tighter clamping without slipping.

### 墙壁开孔器

- 采用硬质合金打造，高硬度抗冲击性强。
- 由中心钻和开孔器两部分构成，连接杆分为方柄、圆柄、长度可根据壁度旋转，自主搭配效率高。
- 方柄选用重型电锤，圆柄使用轻型电锤。
- Made of hard alloy, with high hardness and strong impact resistance.
- Consisting of two parts: a center drill and a hole opener, the connecting rod is divided into a square handle, a round handle, and a length that can be adjusted according to the wall thickness. Rotating, self matching with high efficiency.
- The square handle uses a heavy-duty electric hammer, while the round handle uses a lightweight electric hammer.

### 强磁套筒

#### 产品特点：

- 采用优质铬钒合金钢锻造而成，整体高温淬火热处理，硬度高，扭矩大，
  - 耐磨损，寿命长。
  - 配合普通手电钻、气动风批等工具使用。
- 使用方便，是DIY、汽修行业、建筑装饰及其他专业人士的必备工具。

#### Product features :

- Forged from high-quality chromium vanadium alloy steel, with overall high-temperature quenching heat treatment, high hardness, and high torque, Wear resistance and long service life.
- Used in conjunction with ordinary hand electric drills, pneumatic air drills, and other tools.
- Easy to use, it is a necessary tool for DIY, automotive repair industry, architectural decoration, and other professionals.
